

Cessna | Citation X

The Citation X is a business jet that delivers an optimum combination of speed, comfort, range, and efficiency. It is designed to provide significant benefits to its passengers, flight crews and maintenance personnel - well beyond those offered by any other business aircraft.

The Citation X is not only the fastest business jet aircraft in the world, it also offers high fuel efficiency and low operating costs. As a member of the Citation family, the Citation X joins a fleet of the safest business jets in the world.
