

Bombardier Learjet 45

The Bombardier Learjet 45 is a high-performance light jet celebrated for its speed, range, and exceptional climb capabilities. Designed for both business and specialist missions, the Learjet 45 offers a sleek, spacious cabin that accommodates up to eight passengers in comfort. Its impressive range and high-speed cruise make it ideal for longer domestic or regional flights, while its quick-response performance and rear baggage access in-flight make it well-suited for time-critical aeromedical and medical repatriation operations.
